## C-118 SOLVENT DEGREASER

01/01/18

## **DESCRIPTION**

C-118 Solvent Degreaser (Emulsion Formula) is an industrial grade cleaning solvent formulated for heavy duty degreasing applications. C-118 Solvent Degreaser (Emulsion Formula) provides an economical and effective method for removing grease, oil, sludge and grime from engines, tractors, construction equipment, shop floors, etc. Grease, oil, dirt, sludge, grime, ink, light carbon, and asphalt are dissolved after only a few minutes of soaking and brushing. Machine shops, garages and industrial repair shops will find C-118 Solvent Degreaser (Emulsion Formula) to be an ideal product for heavy-duty degreasing applications because of its ability to emulsify with water and rinse readily. In addition, the flash point of over 140° F makes it safer to use and store than conventional petroleum solvent base degreasers.

## RECOMMENDATIONS

C-118 Solvent Degreaser (Emulsion Formula) can be diluted 1: 6 parts with varsol or mineral spirits. For optimum results, it is suggested that the solution, undiluted, be sprayed onto item or parts which are to be cleaned. Soak for a few minutes, brush surface with a brush if possible and rinse thoroughly with water spray. Blow dry with compressed air, wipe dry, or allow to air dry.

## **WARNING**

C-118 Solvent Degreaser (Emulsion Formula) contains aliphatic petroleum distillates. Harmful or fatal if swallowed. Do not take internally. If swallowed, do not induce vomiting. Call physician immediately. Combustible. Use only in well vented area. Do not use near heat, sparks, open flame or other sources of ignition. Do not smoke in use area. Store in a cool dry location in original shipping containers. Keep container sealed when not in use. KEEP OUT OF REACH OF CHILDREN.

<u>SPECIFICATIONS</u>	
Classification	Industrial Cleaner Solvent
Appearance	Red/Clear Liquid
рН	6.2
Flash Point, °F	142
