L-625 90W140

Power Gear E.P. Gear Lubricant GL-4

01/01/25

Red Dye added for leak traceability

Description

L-625 Power Gear E.P. Gear Lubricant GL-4 gear oil is a multi-service E.P. climbing gear lubricant manufactured with high quality base stocks and superior additive technology. They are recommended for use in gear boxes, manual transmissions, bearings, gear reducers and many other applications where API service classification GL-4 gear lubricant is specified. This product can also be used for make-up of limited slip/positive traction rear axles.

Industry Specifications

- Climbing gear lube due to added tackifier
- 300,000-mile drain interval
- Does Not Mix with Water
- API MT-1
- Non-foaming
- Extreme pressure
- API GL-4
- Non-corrosive
- Limited slip
- MIL-PRF-2105E
- Anti-wear
- Rust inhibitors
