## **L-600-P EXCELUBE PLUS FUEL CONDITIONER**

01/01/25

### Description

**L-600-P Excelube Plus Fuel Conditioner** is a scientifically formulated product developed through years of extended research and close studies of many other time-proven additives and conditioners.

**L-600-P Excelube Plus Fuel Conditioner** is an exclusive combination of all the positive and time-proven ingredients used in some of the best products on the market today. A superior lubricity additive is also incorporated to provide injection pump lubrication when added to “dry” low sulfur diesel fuels. The combination of these time-proven ingredients, other field-tested enhancers and ongoing upgrades makes L-600-P the most effective and versatile product of its kind on the market today.

### Performance Characteristics

**L-600-P Excelube Plus Fuel Conditioner** provides optimum lubrication for today’s diesel & gasoline engines, increases cetane, octane and prolongs engine life through the following features:

- Inhibits harmful acids
- Controls gum & varnish
- Eliminates harmful deposits
- Dissipates heat
- Inhibits bacteria growth
- Eliminates rust & oxidation
- Stabilizes fuels
- Prevents gelling
- Cleans injectors
- Conditions fuel lines
- Emulsifies moisture
- Lubricates upper cylinders

### Recommendations

Fuel Treatment: Add one gal. Excelube Plus to each 1000 gals. of gasoline or diesel fuel.

Add 1/2 oz. Excelube Plus to each 5 gals. of gasoline or diesel fuel.

Specifications	
Viscosity @ 210°F, SUS	64
Viscosity @ 100°F, SUS	96
Flash Point, °F	82
Rust Inhibited	Yes
Anti-Wear Treated	Yes
